### **City of Neosho plans new city facilities *-Pellham Phillips selected as architect-***

(Springfield, MO) Larry Phillips, President of Pellham Phillips Architects and Engineers, today revealed that Pellham Phillips Architects & Engineers has been selected by the City of Neosho, MO for the design of their new Police Department, Fire Station Renovation, Senior Center renovation and expansion, and Streetscape Design.

Phillips said the first phase will be to renovate the senior center as well as the addition of about 2,200 square feet to the center. The addition would house an expanded pool room, game room and reading area.

The layout for the existing center would be revised and include expanded and renovated restrooms and offices; a multipurpose room with spaces for meetings and for a kitchenette; a new corridor; and an enlarged fitness room. In addition, a new roof for the entire building would be included, along with upgrading corridors with decorative tile.

Phillips said the firm has extensive experience on government projects including the renovated Busch Municipal Building, Springfield Fire Stations One and Eight, renovation of the Carthage Municipal Building, projects for the Springfield Public Works Department, and Springfield R-12 School District.
